

Meeting Minutes

Date: 3/28/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Decided on the topic of the project: Fitness Tracker
- Made comments about unnecessary requirements being added
- Edited Proposal to have functional and non-functional requirements
- Setup a when2meet for our weekly availability

Date: 4/9/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Asked the Professor if it was okay to use JavaFX
 - The professor said yes
- Discussed possible project roadmap
- Setup a cloud-based solution to work on the ER diagram together using Draw.io
- Talked about the EER diagram of the project
- Worked on the EER diagram

Date: 4/9/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Andy suggests use to use Scenebuilder for JavaFX
- Discussed how to split up the work
 - Henry suggested determining which work can be done asynchronously and synchronously
 - Alvin suggested splitting up the work between the back end (database) versus the front end (JavaFX)
- Shared GitHub usernames with each other for access to the repository
- Alvin asked about .fxml files
 - Andy explained how they work
- Andy says we need to implement indexing but assured us MySQL automatically handles that so we don't need to be concerned with the implementation
- Nam started to create a table document

Date: 4/16/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Finished the EER Diagram

- Worked on the Relational Schema of the project

Date: 4/23/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Finished the Relational Schema
- Made the Create Statements for all the tables

Date: 4/25/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Agreed on using JavaFX for the project
- Set up JavaFX on everyone's laptop/computer

Date: 4/30/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Is JavaFX viable for the project
- Swapping to Node.js and Express.js

Date: 5/2/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Created the backend and frontend template
- Assigned people to work on the Frontend and the Backend

Date: 5/4/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Went over the work done so far
- Assigned more tasks to be done for the Frontend and the Backend

Date: 5/5/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Discussed and made changes to the database design

Date: 5/6/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Did group programming
- Worked on the Project Report

Date: 5/7/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Discussing the coding work remaining for the project
- Assigning work for the remaining web pages and their functionalities

Date: 5/8/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Discussing code work remaining for the project, such as the profile page and comments page for a certain profile
- Wrapping up project presentation slides and readme
- Doing final touches on the code and fixing bugs

Date: 5/9/2024

Attendees: Nam Bui, Karthik Renuprasad, Andy Liu, Alvin Lee, Henry Choy

Notes:

- Finished profile page and combined all insert statements into one .sql file
- Edited the readme
- Recorded the Project Presentation
- Finished the Project Report
